

Art of Vranov's masters to the walk through time

The second journey of Prešov region begins at the masters of Vranov nad Topľou. Masters Lukáš Murín and Vladimír Vislocký will show how is created new life from wood.

After seeing the harmony between wood and technology the journey will take you to Hanušovce nad Topľou, where you'll experience a walk through historical periods of mankind. Do you have any idea how a Paleolithic knife cuts? Do you know how heavy a Neolithic axe is? Do you think you'll be able to hold a shield from the Bronze Age? Are you able to grind flour on a Celtic mill? Will you induce a few tones on musical instruments? After visiting Hanušovce you will know the right answers.

A. Lukáš Murín

Manufacture of tailored artistic furniture

Â

The art of wood processing has been a part of our family for decades same as high quality wood has been the icon of the Vranov district. I follow the inherited craftsmanship of highest quality with my own hands. At our workshop we manufacture tailored artistic furniture based on the individual needs of each customer. As guardians of cultural values in addition to manufacturing furniture, interior accessories and wooden floors we're devoted to restoration of wooden antiques. Visit us and discover the unlimited options of wood.

B. Vladimír Vislocký

Jointly for our common future

CMC Clusters Meet Culture

An opportunity for development Valorizing productive excellences in tourism-cultural destinations

Artistic woodworks

Harmonious symbiosis of wood and modern technologies

Our sheltered workshop produces hand and laser engraved wooden souvenirs, portraits, tourist signs, medals, pendants. We also print T-shirts, sublimate mugs and produce puzzles from photos, as well as magnets, business cards, etc. In addition we produce all kind of information tables and commercial billboard. We also produce cars stickers and interpretations. Simply said we will produce anything you want.

C. Muzeum in Hanušovce

archeopark of creativity

Â

The museum is original, unique and the only one in Slovakia, which combines a live Archeological park and a traditional Museum. The museum is located in a beautiful baroque mansion belonging to the significant Hungarian Desseffy genus. In the museum you may see valuable collections of the region's nature and history. The archaeological park in the castle's area also provides a good knowledge of ancient history, but in an original way through your own experience. Five dwellings of five prehistoric periods and the early Middle Ages (Paleolithic, Neolithic, Bronze Age, La Tène and Slavic period), so the archaeological tour guides you through about 30 000 years in time.

Do you have any idea how a Paleolithic knife cuts? Do you know how heavy a Neolithic axe is? Do you think you'll be able to hold a shield from the Bronze Age? Are you able to grind flour on a Celtic mill? Will you induce a few tones on musical instruments? In the Archeological park we have banned an expression: do not touch! No, it's an interactive space, a space for your creativity, so that you can take home your own experience of a touch with the past.
